

# ARIVA (ARV)

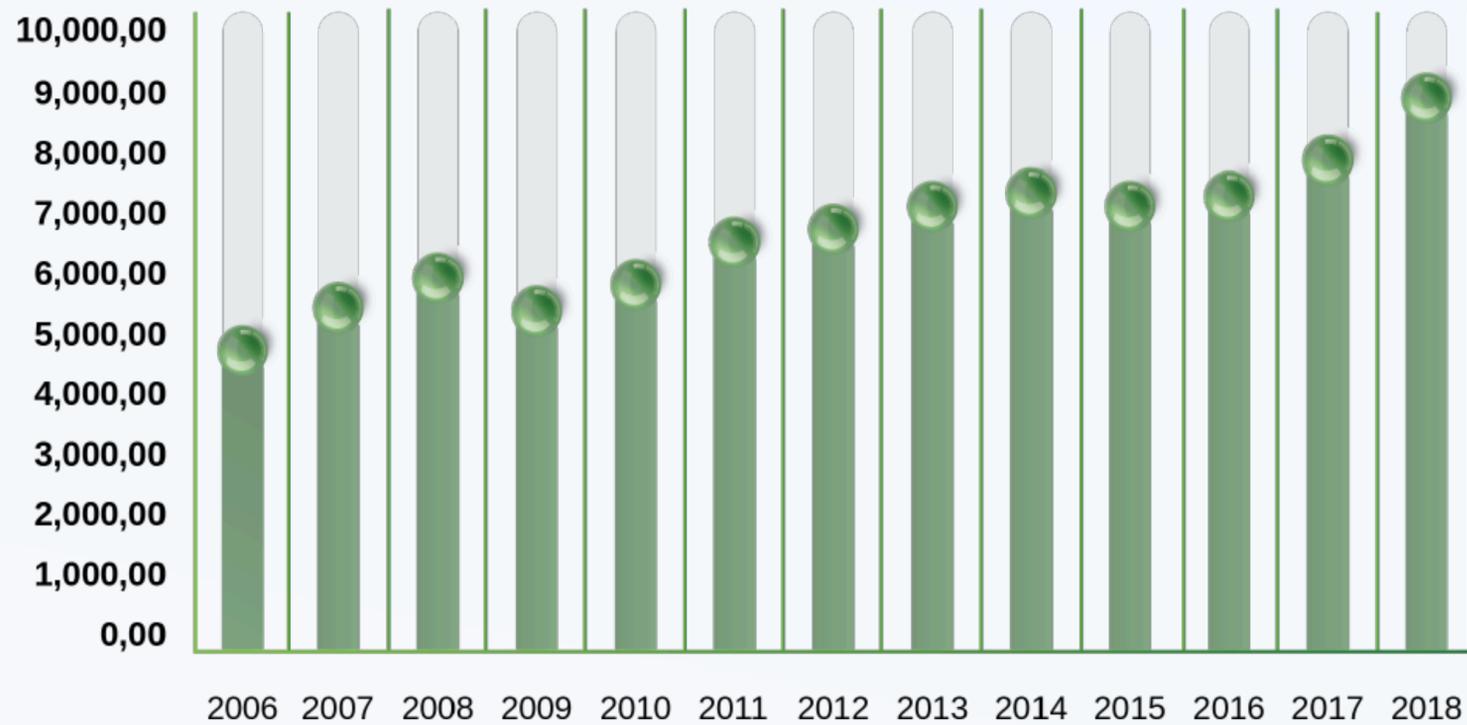

The new generation travel & tourism payment and reward system created by Cryptocurrency.

[www.arivaworld.fr](http://www.arivaworld.fr)

# Presentation

TOTAL CONTRIBUTION

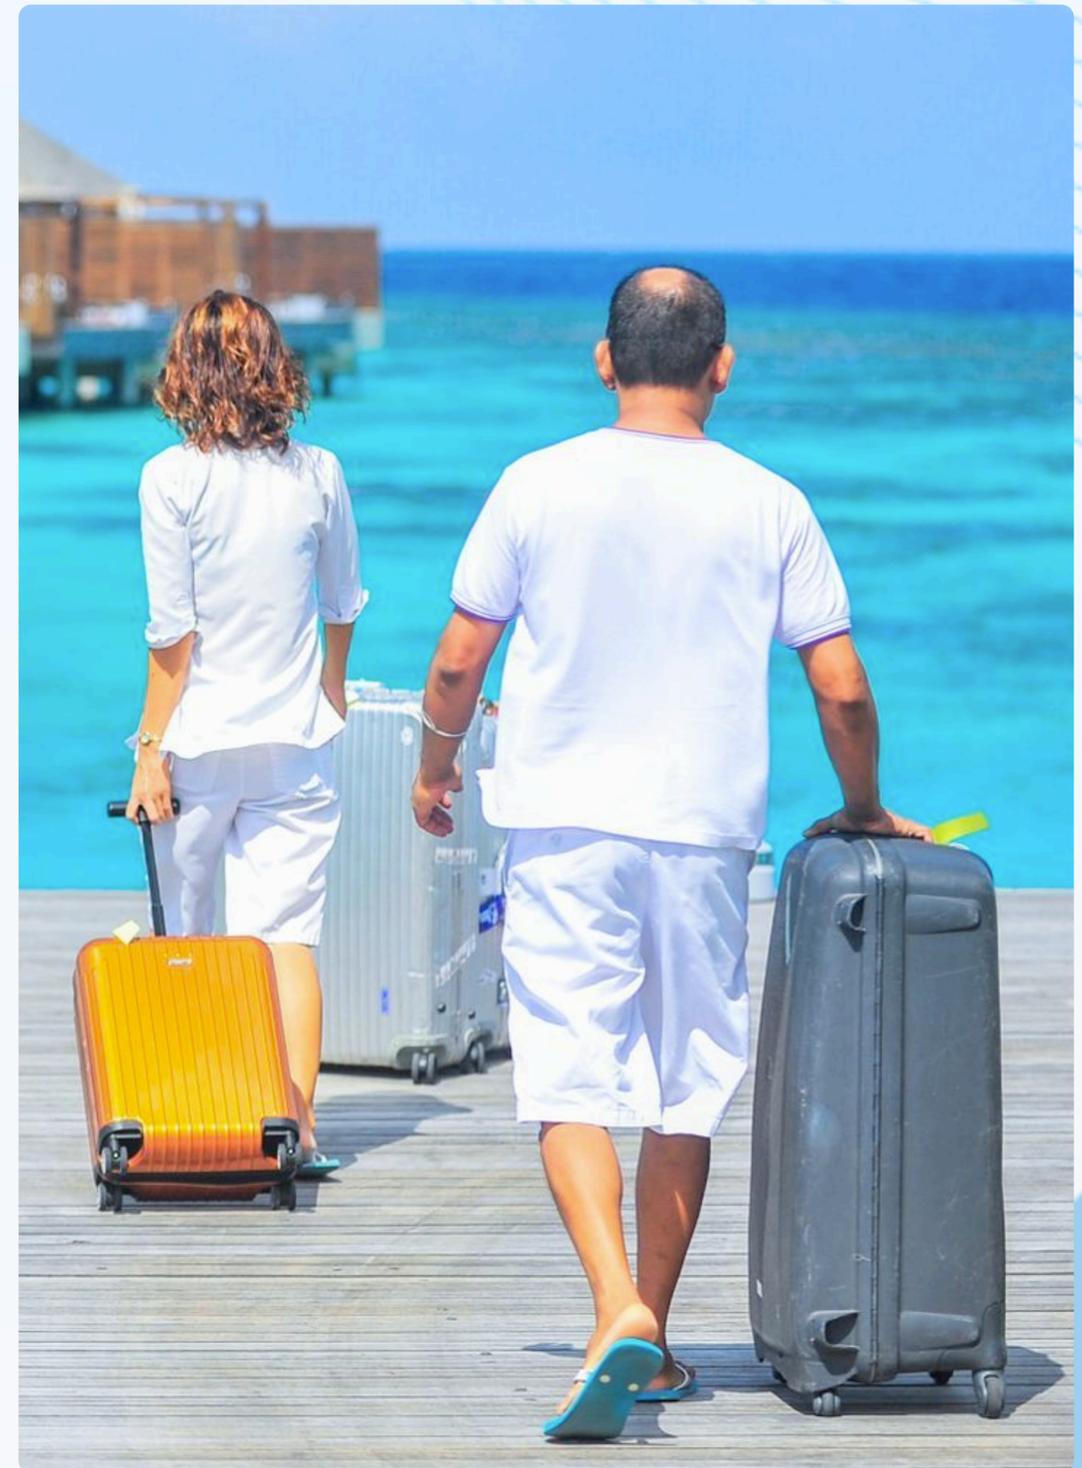

“

Travel and tourism industries are key drivers for investment and economic growth globally

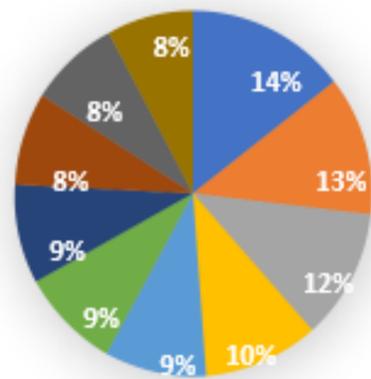

The sector contributes US \$ 8.8 trillion, or 10.4% of global GDP, and accounts for 319 million jobs, or a tenth of all jobs on the planet.

According to monitored international macroeconomic data by the leading international body The World Trade Organization, one of the world's largest commercial service sector industries is tourism & travel. It incorporates many industries, including lodging, transport, attractions, travel companies, and more. Globally, travel and tourism's direct contribution to GDP was approximately 2.9 trillion U.S. dollars in 2019. This industry was severely impacted by the global coronavirus (COVID -19) pandemic that began in early 2020. However, in a ranking top again due to control of the Covid -19 globally in the first quarter of 2021.

Domestic and international travel has become increasingly common all over the world. As a result, both leisure travel spending and business travel spending have recorded year-over-year growth over the past five years. This increase in travel also enabled the development of the number of hotel guests and, accordingly, the Sunday size of the hotel industry. Key performance indicators such as RevPAR (income per available room), ADR (average daily wage), and occupancy have shown year-on-year growth over the past decade due to the influx of tourists worldwide.

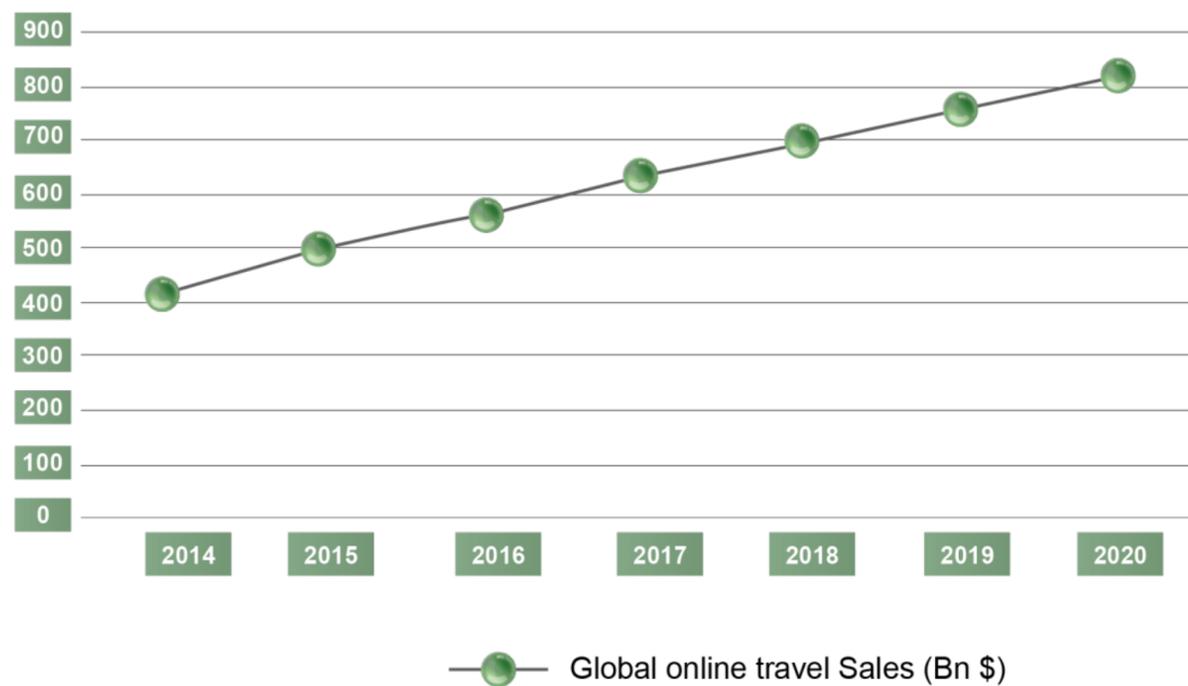

## The 10 Global Biggest Industries by Revenue

- Global Life & Health Insurance Carriers
- Global Pension Funds
- Global Commercial Real Estate
- Global Car & Automobile Sales
- Global Car & Automobile Manufacturing
- Global Direct General Insurance Carriers
- Global Commercial Banks
- Global Oil & Gas Exploration & Production
- Global Auto Parts & Accessories Manufacturing
- Global Tourism

Tourism has become one of the most important players in international trade and is also one of the main sources of income for many developing countries. Today the volume of tourism business is equal to or even greater than oil exports, food products, or automobiles. This growth goes hand in hand with increased diversity and competition between destinations. This has led to the global spread of tourism to industrialized countries and to obtaining economic benefits and employment opportunities in many related sectors, from construction to agriculture or telecommunications.

### Online Travel sales Worldwide

It has become increasingly common for travelers to book their own trips. With the developing digitization of the travel industry, many consumers turn to online travel agencies to book their trips. While there are some major online platforms available, it is now possible to book almost any size of facility and event online.

Considering the entire travel duration from home to back home, this is not just limited to online hotel reservations or ticket purchases. A traveler needs to spend effort on different kinds of processes like private transportation, car rentals, boat tours, guide services, local shopping, tour guides, even tipping. Today, it is necessary to go through various platforms to complete these processes.

# Our Solution

Imagine a new generation travel portal where giant tourism companies do not praise themselves or their contracted facilities, where only biased customer reviews are not allowed, where you do not have to pay different local currencies that are not familiar to you, where there are no chaotic Swift transfers or high credit card commissions. Thousands of accommodation facilities, yachts, transportation vehicles, travel services, and ticket booking companies around the world can publish their own products, thousands of travelers review and rate their experiences, you ask questions, make reservations in the fastest, easiest and safest way, and make all payments in a single new way. Think of a giant platform where you can easily do it with the next generation of Cryptocurrency and earn digital money rewards at each of your events. Even if you share your latest travel story with other users too.

# Welcome to Ariva.World

We are proudly presenting to you  
“Ariva.World” the new generation of a  
decentralized travel & tourism portal powered  
by the Binance Smart Chain.

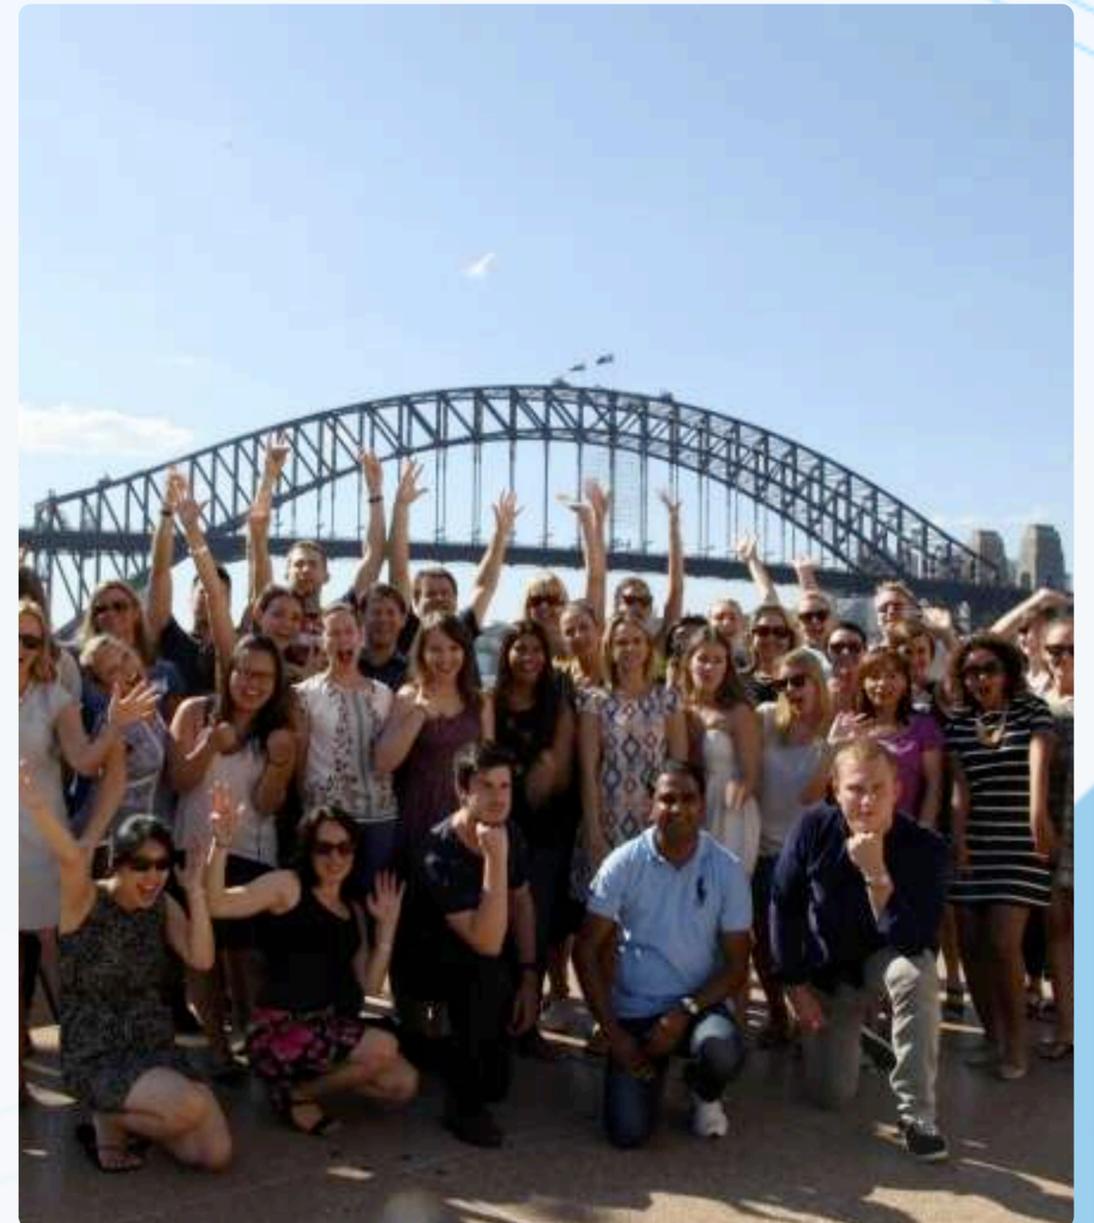

A Travel & Tourism network where members  
can meet with global and local tourism service  
providers in the light of previous travelers'  
experiences and shares, make bookings with  
Cryptocurrency and earn crypto money from  
both their reservations and valuable content  
sharing.

# Ariva (Arv) Our Vision Mission

Ariva is a cryptocurrency launched by Ariva Co. and produced for active use in global and local tourism and travel networks. Project is a worldwide B2C travel & tourism network where members can meet with international and local tourism service providers in the light of previous travelers' experiences and comments, make bookings with cryptocurrencies,

and earn crypto money from both their reservations and valuable content sharing. With the arrival of ARIVA, the digital payment system is about to experience a massive innovative turnaround that can change the world and make trading more accessible and better. ARV came into existence intending to make transactions hassle-free in global and local tourism networks soon.

The project aims to achieve active use in the tourism and travel industry, one of the world economy's largest and most important industries. However, none of the previously produced cryptocurrencies have been targeted. Out to be the game-changer in the cryptocurrency world, ARIVA aims to make a cryptocurrency trade on an exchange and ensure that ARV is actively used in the tourism industry.

# What is ARV?

ARV is a BEP20 token generated using the Binance Smart Chain network. Currently, our team is working intensively on developing our coin and wallet, and we aim to launch it in the first quarter of 2022 at the latest. In addition to our portal where people can book their holidays instantly online by converting fiat and other cryptocurrencies to ARV, the most significant technological innovation that will emerge when this software is completed is that it will work like a credit card and POS machine system in the facilities and vendors in the target destinations.

ARIVA will change the future of the travel industry by integrating it with the crypto world.

Ariva has been produced to eliminate the expensive costs of international high-volume money transfers and the swift transaction complexity in the tourism and travel industry, one of the world economy's biggest industries. One of its main aims is to eliminate the Complexity and difficulty of using the local currency in the destination country. ARV is the tourism cryptocurrency of the near future that can be spent safely in every country from the crypto money wallet, eliminating the need to carry cash or debit cards.

Online sellers and buyers pay a lot for the traditional bank system commissions and hidden fees. Cryptocurrencies are now a part of our life. They are global, secure, swift, and transparent with low transaction fees. ARIVA is a solution: it is the easiest way to set up a payment gateway on websites and mobile apps in minutes.

The world has been a global village that needs a unifying currency to make trading easy, and since the release of cryptocurrencies to fill that void, there have been loopholes in terms of reliable services.

# Core team members of ARV

In the project's background, there is a company with 20 years of global tourism experience, tourism professionals working to integrate crypto into tourism in many parts of the world, and a technology and development team that is growing day by day.

Why are we not announcing the team and Board of Directors?

Ariva is the product of a collaboration of four different companies based in other countries, which we will announce yy yy yy.

We do not announce this information for now, with the concern that advertising these companies and their Board of Directors during the growth phase will turn the project into a centralized structure.

We will announce these details when our ecosystem integration is completed according to our roadmap.

**WE AIM TO CREATE A DECENTRALIZED CRYPTO TOURISM PORTAL.**

# Our Projects

The first Global Travel & Tourism platform integrated with cryptocurrencies, all around the world!

We are proudly presenting to you “Ariva.World”, the new generation of a decentralized travel & tourism portal, based on blockchain technology.

A Travel & Tourism network where members can meet with global and local tourism service providers in the light of previous traveler's experiences and shares, make bookings with cryptocurrencies and earn crypto money from both their reservations and valuable content sharing.

# Ariva.World contains the following sections

## FACILITY AND SERVICE LISTINGS

A travel portal that is open to everyone with B2C facility and service details, where travelers can make bookings with cryptocurrencies.

## BUSINESS DASHBOARD

Product & service management panel for travel service providers like hotels and restaurants, airlines, car rental companies, tour guides, etc.

## ONLINE SHOP

An online shop where valuable local goods can be sold in retail with cryptocurrencies.

**The first Global Travel & Tourism platform integrated with cryptocurrencies, all around the world!**

We are proudly presenting to you “Ariva.World”, the new generation of a decentralized travel & tourism portal, based on blockchain technology.

A Travel & Tourism network where members can meet with global and local tourism service providers in the light of previous traveler's experiences and shares, make bookings with cryptocurrencies and earn crypto money from both their reservations and valuable content sharing.

# The benefits of using Ariva.Finance

## EASY SETUP

This is the easiest way to set up a cryptocurrency based payment gateway on websites and mobile apps, in minutes. APIs and documentation will be published on Github when the project launches.

## CRYPTO WALLETS

It will be free and designed to work with major wallets and cryptocurrencies in the first step. Supporting wallets and cryptocurrencies will be added to the project.

## SECURE, FAST, EASY

Cryptocurrencies are very secure and transactions are so fast. When the buyer scans the QR code displayed on the screen and confirms the amount, the gateway owner will receive the payment in just a few seconds.

## The new generation of payment gateways based on blockchain technology!

Over the last few years, e-commerce has become an indispensable part of the global retail framework. Like many other industries, the retail landscape has undergone a substantial transformation following the advent of the

Internet, and thanks to the ongoing digitalization of modern life, consumers from virtually every country now profit from the perks of online transactions. As Internet access is increasing rapidly worldwide, the number of digital buyers keeps climbing every year. In 2020, over two billion people purchased goods or services online, and during the same year, e-retail sales surpassed 4.2 trillion US dollars worldwide.

Online sellers and buyers pay a lot for the traditional bank system commissions and hidden fees. Cryptocurrencies are now a part of our life. They are global, secure, very fast, and transparent with low transaction fees. Ariva.Finance is our solution: it is the easiest way to set up a payment gateway on websites and mobile apps, in minutes.

# The advantages of using Ariva.Club

## SHARE AND CATCH REWARDS

Share your experiences through photos, videos, and blogs with users all around the world and get ARV.

## REAL EXPERIENCES

Ariva.Club AI tries to filter all spam from the platform and allow users to reach only real human experiences.

## BEST PR

If you are a part of the tourism industry, Ariva.Club is the best platform to introduce your business to all around the world!

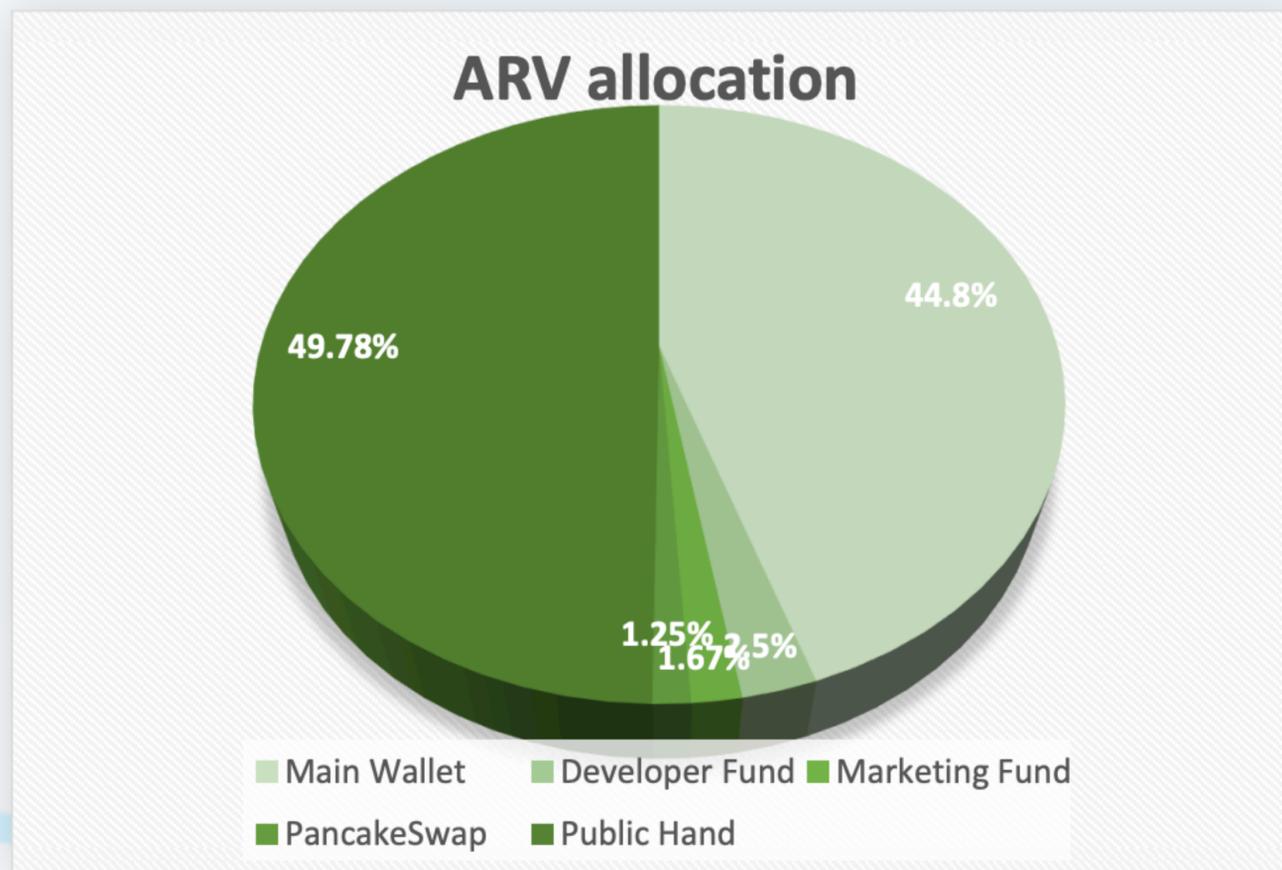

## Tourism industry's best social media platform

Ariva.Club is a new social media platform for everyone to share their experience about travels, restaurants, agencies, museums, hotels, yachts, and all related tourism industries and get rewards in cryptocurrency.

Before traveling or going to a restaurant, most people search online about their destination. Some of the search results are advertisements and some of them are not real. In Ariva.Club, we try to filter scams and promote and not trustable results, and show only real personal experiences.

# ARIVA (ARV) Tokonomics

Important Informations & Distribution Breakdown

Total Supply 100,000,000,000 ARV.

## KEY POINTS:

- The launch began on May 26, 2021.
- No pre-sale or reservation agreements.
- Total Supply 100,000,000,000 ARV.
- Circulating Supply 51,033,349,029 ARV

## Where to Buy

# Road Map

(2021, 2nd Q)

- Project development and market research
- Preliminary meetings with tourism and travel companies
- Building a project team
- Project design
- Website Development
- Coin Protocol Creation

2021, 3rd Q

- Launching on PancakeSwap
- Cooperation with tourism companies
- Creation of an appropriation found
- Whitepaper creation
- Improve website usability
- Start a powerful marketing campaign
- Listing on most major cryptocurrency data authority websites
- Hiring for empty positions
- Start developing Ariva.World Project

2021, 4th Q

- Growing global marketing campaigns
- Listing on medium-sized exchanges
- Launching Ariva.World beta version
- Start developing Ariva.Finance project
- Growing Ariva team

# Road Map

## 2022, 1st Q

- Blockchain For Travel Forum in Dubai
- Ariva.Digital Version Update
- Launching Ariva.World Dubai Company
- Ariva.World Release Candidate
- Launching Ariva.World Android and iOS Apps
- Launching Ariva.Finance Payment Gateway
- Launching Ariva.Game Metaverse Website
- Publishing Ariva Wonderland Whitepaper
- Launching Ariva Wonderland Pre-Alpha Test
- B2B Business developments

## 2022, 2nd Q

- Growing Global Marketing Campaigns
- Continuing Ariva Wonderland Land Sales
- Ariva Wonderland NFT Marketplace Version Update
- Ariva Wonderland Map Version Update
- Launching Ariva Wonderland Creator Editor
- Ariva.World Version Update
- Adding Additional Languages to Ariva.World
- Partnership for Ariva Debit Card and Pos Machine
- Ariva Presentation in GTF Leaders Summit in Washington, D.C.
- Completion of Preliminary Preparations for Ariva Blockchain
- Ariva Creator (Editor design (UI) Realization for Ariva Wonderland
- Listing new trading pair on major exchanges

## 2022, 3rd Q

- Growing Influencer Marketing Campaigns
- Partnership With Hotel Groups and Travel Agents
- Adding Additional Cryptocurrencies to Ariva.World
- Ariva.Finance Payment Gateway for B2C
- Ariva Wonderland System Customizations
- Ariva Presentation in GTF Leaders Summit in Brussels
- Launching Ariva Fan Online Shopping on Ariva.Digital
- Start Developing Ariva.Club Project
- Start working on switching to ARV's own network on Testnet

## 2022, 4th Q

- Publishing Ariva Wonderland Beta with fully VR Support
- Launching the Ariva.Club Alpha Version
- Launching the ARV Voting
- Ariva Presentation in GTF Leaders Summit in Bali
- Audit by credible company
- Switching ARV to its own Mainnet Network
- Publication of the 2023 Roadmap

# ADVANTAGES OF USING ARV

Eliminates the need for complicated and expensive SWIFT operations that require a lot of detailed information.

No high credit card commissions and no exchange costs in local currencies.

Eliminates the need to carry multiple alternative payment methods such as debit cards, credit cards, or cash.

Eliminates the need for complicated and expensive SWIFT operations that require a lot of detailed information.

No high credit card commissions and no exchange costs in local currencies.

Eliminates the need to carry multiple alternative payment methods such as debit cards, credit cards, or cash.
